

INTRODUCTION

Before seeking our advice, you probably have a number of questions you would like to ask about us. You have the right to ask about our charges, the type of advice we will give and what you can do if you have a complaint about our services.

Information about these issues is provided in this Financial Services Guide (FSG) to assist you in determining whether to use our services.

Poynter Hargraves Financial Consultants Pty Ltd authorises the distribution of this FSG.

OTHER DOCUMENTS YOU MAY RECEIVE

You should also be aware that you are entitled to receive a Statement of Advice (SoA) whenever we provide you with any advice that takes into account your objectives, financial situation and/or needs. The SoA will contain the advice, the basis on which it is given and information about fees, commissions and associations which may have influenced the provision of the advice.

On an ongoing basis, if further advice is furnished, or when no financial product is recommended, a Record of Advice (RoA) may be provided to you instead of a SoA. You have the right to request a copy of the RoA (if you have not previously received a copy) within 7 years of that further advice being given.

If we recommend that you acquire a particular financial product (other than securities), or offer to issue or arrange the issue of a financial product, we must also provide you with a Product Disclosure Statement containing information which will assist you to decide whether to acquire that product.

Poynter Hargraves' investment philosophy follows the guiding principles used by Morningstar.

- We put investors first – We believe firms that put investors first win in the long term because their investors win.
- We're independent-minded – To deliver results, we think it's necessary to invest with conviction, even when it means standing apart from the crowd.
- We invest for the long term – A patient, long-term view helps us to stay the course during the market's ups and downs and take advantage of opportunities when they arise.

- We're valuation-driven investors – We anchor on an investment's underlying intrinsic value, rather than fleeting news, sentiment or momentum. Much of the market's daily volatility is meaningless noise.
- We are research driven – Powerful research is behind each decision we take, and we invest significant time and resources to truly understand what we own and why we own it.
- We strive to minimise investment costs – Controlling costs helps investors build wealth by letting them keep more of what they earn.
- We build portfolios holistically – To help manage risk and deliver better returns, truly diversified portfolios combine investments with different underlying drivers, improving stability and total returns over time.

COST

How Will I Pay For The Service?

Your initial consultation is free of charge. During this meeting we will examine your situation and explain how we can work with you.
